RE: TO WHOM IT MAY CONCERN

Dear Sir/Madam,

RE: RECOMMENDATION FOR MR. BRIAN OLOO OJALA

This is to confirm that the above-mentioned person is a student pursuing Master of Science in Epidemiology and Biostatistics in the School of Health Sciences (Reg. No. H153/P/9796/24). At present, Mr. Ojala is continuing with his thesis development, and is expected to complete his training by 30th November 2026. His research is on the determinants of malaria morbidity among school-age children in western Kenya.

Notably, Mr. Ojala has during his tenure as a student exhibited good reading and writing skills, and has demonstrated statistical prowess. He is industrious, disciplined and dependable. In addition, he communicates well and has great enthusiasm for health research. He also has the capacity to work with minimal supervision, while being a great team player.

Any assistance accorded him will be highly appreciated.

Yours sincerely,

Dean, School of Health Sciences
